

Register of Authorisations granted under the Law of 15 December 2020 on Space Activities

Name of Operator	Authorisation Date	Space Activity Description
SES Astra S.A.	14 December 2022	The authorised space activity consists of launch and operation of SES Astra S.A. satellites falling under the Law of 15 December 2020 on Space Activities. The satellites will be used to provide reliable and secure satellite communications solutions to broadcast, telecom, corporate and government customers worldwide.
Kleos Space S.A.	23 December 2022	The authorised space activity consists of launch and operation of Kleos Space S.A. identical satellites constellation in Low Earth Orbit falling under the Law of 15 December 2020 on Space Activities. The satellites constellation will be used to provide services and products of Earth Observation data, improving both maritime and land-based safety.
OQ Technology S.à r.l.	23 December 2022	The authorised space activity consists of launch and operation of in-orbit demonstration satellite and identical additional satellites in Low Earth Orbit falling under the Law of 15 December 2020 on Space Activities. The satellites will be used to provide Internet of Things and machine connectivity services.

University of Luxembourg (Université du Luxembourg)	22 April 2024	The authorised space activity consists of launch and operation of one in-orbit demonstration satellite in Low Earth Orbit falling under the Law of 15 December 2020 on Space Activities. The satellite will be used to demonstrate the use of ultra-miniaturised technologies in space.
Spire Global Luxembourg S.à r.l.	8 July 2024	The authorised space activity consists of launch and operation of Spire Global Luxembourg S.à r.l. satellites in Low Earth Orbit falling under the Law of 15 December 2020 on Space Activities. The satellites will be used to provide space-based data for Earth Observation as well as to provide platform for third party payloads.
